To whom it may concern,

I am writing this letter of recommendation for Greg Jameson. I have known Greg for nine years now. We have had a business relationship turned friendship from working together on a variety of marketing, technical and community projects over those nine years.

His demonstration of expertise in technology for use in business and marketing is unmatched by anyone else that I know. I have personally attended several of his presentations and read his books as well.

Some key areas that I find true of Greg are as follows.

- Knowledgeable
- Real World experience
- Takes technical subjects and makes them easy to understand
- prepared and organized
- expert communication skills
- always improving himself
- caring, engages students
- instills confidence
- strong work ethic
- problem solver
- high expectations for all
- extremely passionate about technology

Some places where Greg has taught outside the traditional classroom:

- Seminars
- live presentations and lectures
- technical webinars
- conferences and conventions
- workshops
- professional trainings
- MeetUps

If I can provide any further details or information, please reach out to me directly.

Sincerely,

Peter Brissette
